

What does the Virginia Insurance Data Security Act require?

**Risk Assessment  
Information Security Plan  
Incident Response Plan**

Has your agency implemented the appropriate security measures?

If you're unsure of your responsibilities under Virginia law, **we can help.**

Answers to the questions below give you insights into your agency's security posture:

- **Have you recently performed a risk assessment?**
- **How aware are you of your agency's security needs?**
- **If you have a security program, do you have documentation?**
- **Are your employees trained in identification and response to cyber-attacks like phishing emails?**
- **In the event of a breach, do you know how to respond and who to contact?**

**We are here to help, let's uncover the answers together and determine a path forward!**
